FOREWORD

The IECQ Quality Assessment System for Electronic Components (IECQ) is composed of those member countries of the International Electrotechnical Commission (IEC) who wish to take part in a harmonized system for electronic components of assessed quality. IECQ is also known in some European member countries as IECQ-CECC.

The object of the System is to facilitate international trade by the harmonization of the specifications and quality assessment procedures for electronic components, and by the grant of an internationally recognised Mark, or Certificate of Conformity. The components produced or services provided under the system are thereby acceptable in all member countries without further testing.

This Component Specification is based upon the requirements of IECQ 03-3, Annex E (QC 001002-2 Amendment 1, Clause 5.4) and has been prepared by:

Isocom Ltd
48 Hutton Close
Crowther Industrial Estate

AMENDMENT RECORD

Issue 1 – Changed Page 4 – Amendments 06/07/09
Issue 2 – Changed Pages 3, 4, 5 & 6 – RoHS Compliant & Amendments – 13/07/10
Issue 3 – Changed Page 6 – Added 4/5 pin hybrid outline drawing – 26/5/11
Issue 4 – Changed Page 4, text changed on selection guide, change to drawing for CSM168-2,
changed Page 5 changed description of 16 pin DIP, changed text on document footer 30/5/13

REQUIREMENTS

The requirements for IECQ Component Specifications as detailed in IECQ 03-3, Annex E (QC 001002-2 Amendment 1, Clause 5.4) are satisfied by the following data sheet.

It should note that IECQ are not responsible for manufacturers declarations made in data sheets which fall outside the limits of approved detailed in IECQ certificates.

This Component Specification is intended for use with applicable IECQ Assessment Specifications. Eg: QC 88000-A0001
