CONTENTS

FOREWORD.....	4
1 Scope.....	6
2 Normative references	6
3 Terms, definitions and abbreviated terms	6
3.6 Abbreviated terms.....	7
4 Mapping of the audio bit stream on to IEC 61937-1	7
4.1 General.....	7
4.2 AC-4 burst-info	7
5 Format of AC-4 data-bursts	8
5.1 General.....	8
5.2 Pause data-burst	8
5.3 Audio data-burst	8
5.3.1 The AC-4 data	8
5.3.2 Latency of the AC-4 decoder	12
5.3.3 The AC-4 HBR4 data	13
5.3.4 Latency of the AC-4 HBR4 decoder	16
5.3.5 The AC-4 HBR16 data	17
5.3.6 Latency of the AC-4 HBR16 decoder	20
5.3.7 The AC-4 LD data	21
5.3.8 Latency of the AC-4 LD decoder	23
Annex A (normative) AC-4 sync frame	25
Figure 1 – AC-4 data-burst.....	9
Figure 2 – Latency of AC-4 decoding	12
Figure 3 – AC-4 HBR4 data-burst	13
Figure 4 – Latency of AC-4 HBR4 decoding	16
Figure 5 – AC-4 HBR16 data-burst.....	17
Figure 6 – Latency of AC-4 HBR16 decoding	21
Figure 7 – AC-4 LD data-burst	22
Figure 8 – Latency of AC-4 LD decoding.....	24
Figure A.1 – An AC-4 sync frame.....	25
Table 1 – Shorthand notation for fractional frame rates.....	7
Table 2 – Fields of burst-info	8
Table 3 – Repetition period of the Pause data-bursts	8
Table 4 – Data-type-dependent information for AC-4.....	9
Table 5 – AC-4 base sampling frequency, AC-4 audio framerate and corresponding AC-4 data-burst repetition period	10
Table 6 – AC-4 data-burst sequence and repetition period variance at 29,97, 59,94 and 119,88 fps.....	10
Table 7 – AC-4 data-burst: meaning of Pc bits 8 to 11 at an IEC 60958 frame rate of 48 kHz	11
Table 8 – AC-4 data-burst: meaning of Pc bits 8 to 11 at an IEC 60958 frame rate of 44,1 kHz	11
Table 9 – Maximum burst-length values per AC-4 data-burst repetition period	12

Table 10 – Data-type-dependent information for AC-4 HBR4.....	13
Table 11 – AC-4 base sampling frequency, AC-4 audio frame rate and corresponding AC-4 HBR4 data-burst repetition period	14
Table 12 – AC-4 HBR4 data-burst sequence and repetition period variance at 29,97, 59,94 and 119,88 fps	14
Table 13 – AC-4 HBR4 data-burst: meaning of Pc bits 8 to 11 at an IEC 60958 frame rate of 192 kHz	15
Table 14 – AC-4 HBR4 data-burst: meaning of Pc bits 8 to 11 at an IEC 60958 frame rate of 176,4 kHz	15
Table 15 – Maximum burst-length values per AC-4 HBR4 data-burst repetition period	16
Table 16 – Data-type-dependent information for AC-4 HBR16.....	18
Table 17 – AC-4 base sampling frequency, AC-4 audio frame rate and corresponding AC-4 HBR16 data-burst repetition period	18
Table 18 – AC-4 HBR16 data-burst sequence and repetition period variance at 29,97, 59,94 and 119,88 fps	19
Table 19 – AC-4 HBR16 data-burst: meaning of Pc bits 8 – 11 at an IEC 60958 frame rate of 768 kHz	19
Table 20 – AC-4 HBR16 data-burst: meaning of Pc bits 8 to 11 at an IEC 60958 frame rate of 705,6 kHz	19
Table 21 – Maximum burst-length values per AC-4 HBR16 data-burst repetition period	20
Table 22 – Data-type-dependent information for AC-4 LD	22
Table 23 – AC-4 base sampling frequency, AC-4 audio frame rate and corresponding AC-4 LD data-burst repetition period	22
Table 24 – AC-4 LD data-burst sequence and repetition period variance at 119,88 fps	23
Table 25 – AC-4 LD data-burst: meaning of Pc bits 8 to 11	23
Table 26 – Maximum burst-length values per AC-4 data-burst repetition period	23
Table A.1 – AC-4 sync frame syntax	25

INTERNATIONAL ELECTROTECHNICAL COMMISSION

DIGITAL AUDIO – INTERFACE FOR NON-LINEAR PCM ENCODED AUDIO BITSTREAMS APPLYING IEC 60958 –

Part 14: Non-linear PCM bit streams according to the AC-4 format

FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 61937-14 has been prepared by technical area 4: Digital system interfaces and protocols, of IEC technical committee 100: Audio, video and multimedia systems and equipment.

The text of this International Standard is based on the following documents:

CDV	Report on voting
100/2723/CDV	100/2932/RVC

Full information on the voting for the approval of this International Standard can be found in the report on voting indicated in the above table.

This document has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts of IEC 61937, under the general title *Digital audio – Interface for non-linear PCM encoded audio bitstreams applying IEC 60958* can be found on the IEC website.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under "<http://webstore.iec.ch>" in the data related to the specific document. At this date, the document will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

A bilingual version of this publication may be issued at a later date.

DIGITAL AUDIO – INTERFACE FOR NON-LINEAR PCM ENCODED AUDIO BITSTREAMS APPLYING IEC 60958 –

Part 14: Non-linear PCM bit streams according to the AC-4 format

1 Scope

This part of IEC 61937 describes the method to convey non-linear PCM bit streams encoded according to the AC-4 format.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
