## CONTENTS

FOREWORD .....	5
1 Scope .....	7
2 Normative references .....	7
3 Terms, definitions and abbreviated terms .....	7
3.1 Terms and definitions .....	7
3.2 Abbreviated terms .....	9
4 General .....	10
4.1 Overview .....	10
4.2 Objective .....	10
4.3 Summary .....	10
4.4 Principles .....	11
4.5 Considerations .....	11
5 Accessibility related to auditory perception .....	11
5.1 Overview .....	11
5.2 Essential functions .....	11
5.2.1 List of functions .....	11
5.2.2 Closed captioning .....	12
5.2.3 Subtitles .....	12
5.2.4 (Open) Sign language .....	12
5.3 Additional functions .....	13
6 Accessibility related to visual perception .....	13
6.1 Overview .....	13
6.2 Essential functions .....	13
6.2.1 List of functions .....	13
6.2.2 Audio description .....	14
6.2.3 Spoken subtitles .....	14
6.3 Additional functions .....	14
6.4 Solutions for users with little or no visual perception .....	14
6.4.1 Physical buttons and keys .....	14
6.4.2 Assistive speech .....	16
6.4.3 Tone-based feedback .....	17
6.4.4 Speech recognition .....	18
6.5 Solutions for users with low visual perception .....	18
6.5.1 Overview .....	18
6.5.2 Large fonts, icons, and buttons .....	18
6.5.3 Screen magnifier .....	19
6.5.4 Arrows .....	20
6.5.5 High contrast .....	20
6.5.6 Background images .....	20
6.6 Solutions for those with limited colour vision perception .....	20
7 Accessibility related to mobility .....	20
7.1 Overview .....	20
7.2 Functions .....	21
7.2.1 General .....	21
7.2.2 Single hand operation .....	21
7.2.3 Single button operation .....	21

7.2.4	Resting the remote control on a surface .....	21
7.2.5	Angle of use .....	21
8	Accessibility related to cognitive abilities .....	21
8.1	Overview.....	21
8.2	Language.....	22
8.3	Icons.....	22
8.4	Labels.....	22
8.5	Buttons .....	22
8.6	Use of red .....	22
8.7	Simplicity .....	22
9	Accessibility related all (other) perception .....	22
9.1	Setup.....	22
9.1.1	Overview .....	22
9.1.2	Entering account and authorisation information .....	23
9.1.3	Suggested sequence for initial setup .....	23
9.2	Content search .....	24
Annex A (informative)	Remote controls and buttons .....	26
Annex B (informative)	On screen display .....	28
Annex C (informative)	Content.....	29
C.1	General.....	29
C.2	Closed captioning .....	29
C.3	Spoken subtitles .....	29
C.4	Subtitles .....	29
C.5	(Open) Sign language .....	30
Annex D (informative)	External devices.....	31
D.1	Overview.....	31
D.2	Pairing with external devices.....	31
D.3	External audio/headphone connections .....	32
D.4	Support for USB human interface input/output devices.....	32
Annex E (informative)	Background .....	33
E.1	Widest range of users .....	33
E.2	Context of use .....	33
E.3	Accessibility considerations .....	34
E.4	Accessibility principles .....	34
E.4.1	General .....	34
E.4.2	Functional equivalency .....	35
E.4.3	User interface accessibility .....	35
E.4.4	Content accessibility.....	35
E.4.5	Accessibility through external solutions .....	36
E.4.6	Evaluating accessibility and usability .....	36
E.4.7	Multi-modality .....	37
Annex F (informative)	Brief user profile outline .....	38
F.1	Preliminary remarks .....	38
F.2	Key demographic groups .....	38
F.2.1	Blind and partially sighted people .....	38
F.2.2	People with colour blindness .....	39
F.2.3	Deaf and hard of hearing people.....	39
F.2.4	People with physical disabilities.....	40

F.2.5	People with cognitive disabilities .....	40
F.2.6	Older people .....	41
F.3	Key statistics .....	41
Annex G (informative)	Guidance on use of colours.....	42
Annex H (informative)	User abilities, characteristics and preferences – Environment and context of use .....	43
Annex I (informative)	Future access services .....	44
Annex J (informative)	FCC user interface rules .....	45
Bibliography.....		46
Figure 1 – Recommended layout of numeric keys .....		16
Figure A.1 – Layout of numeric keys in Japan .....		27
Table H.1 – User abilities, characteristics and preferences .....		43

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

### **AUDIO, VIDEO AND MULTIMEDIA SYSTEMS AND EQUIPMENT – DIGITAL TELEVISION ACCESSIBILITY – FUNCTIONAL SPECIFICATIONS**

#### FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 62944 has been prepared by technical area 16: Active assisted living (AAL), accessibility and user interfaces, of IEC technical committee 100: Audio, video and multimedia systems and equipment.

The text of this standard is based on the following documents:

CDV	Report on voting
100/2640/CDV	100/2795/RVC

Full information on the voting for the approval of this International Standard can be found in the report on voting indicated in the above table.

This document has been drafted in accordance with the ISO/IEC Directives, Part 2.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under "<http://webstore.iec.ch>" in the data related to the specific document. At this date, the document will be

- reconfirmed,
- withdrawn,
- replaced by a revised edition, or
- amended.

A bilingual version of this publication may be issued at a later date.

## **AUDIO, VIDEO AND MULTIMEDIA SYSTEMS AND EQUIPMENT – DIGITAL TELEVISION ACCESSIBILITY – FUNCTIONAL SPECIFICATIONS**

### **1 Scope**

This document specifies a set of principles and considerations for digital television products in support of older people and persons with disabilities in addition to mainstream users. The effect of following the principles and considerations as set out in this document is to ensure that the widest range of users can access, understand and use digital television products. These principles and considerations cover four main user profiles such as individuals with hearing impairments, individuals with sight impairments, individuals with mobility impairments and individuals with cognitive impairments.

This document applies to consumer solutions whose primary function is to receive digital television, such as integrated digital televisions, set top boxes, digital television recorders and equivalent products and devices (see Annex D). All these solutions are referred to as digital television solutions throughout this document. The standard does not cover solutions that support digital television as a secondary function (for instance gaming consoles or computers with digital receiver cards). However, much of the content also provides for future solutions and/or implementations. This document does not cover delivery, unpacking, secure installation on a stand or wall mounting or first time connection of the power and signals.

### **2 Normative references**

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

IEC 62731:2013, *Text-to-speech for television – General requirements*

ISO 7001:2007, *Graphical symbols – Public information symbols*

ISO 24500:2010, *Ergonomics – Accessible design – Auditory signals for consumer products*

ISO 24501:2010, *Ergonomics – Accessible design – Sound pressure levels of auditory signals for consumer products*

ISO 24503:2011, *Ergonomics – Accessible design – Tactile dots and bars on consumer products*
