

International Electrotechnical Commission International Organization for Standardization Graphical Symbols for Use on Equipment

(requires password)

The database on Graphical Symbols for Use on Equipment contains the complete set of graphical symbols included in IEC 60417 and ISO 7000. It therefore offers end-users a "one-stop" shop for all such graphical symbols. These International Standards are maintained respectively by IEC/TC 3, subcommittee SC 3C and ISO/TC 145, subcommittee SC 3.

Each graphical symbol is identified by a reference number and contains a title (in English and French), a graphical representation in GIF and/or PNG and vectorized PDF format, and some additional data as applicable. Various search and navigation facilities allow for easy retrieval of graphical symbols.

Subscriptions

Customers have the possibility to subscribe to the joint IEC and ISO collection of graphical symbols or to each respective organization's graphical symbols only.

Joint IEC 60417 and ISO 7000 collection

The most cost effective solution is the combined collection which offers the IEC 60417 and ISO 7000 collections in database format, with the possibility to download IEC 60417 snapshots or the ISO 7000 snapshots in PDF format. In order to subscribe please contact your local IEC National Committee/approved sales outlet or local ISO member, or visit the [IEC Webstore](#) or the [ISO Store](#).

IEC 60417 collection only

If you are only interested in those graphical symbols produced by the IEC, then this restricted collection offers you access to the IEC 60417 standard only, with PDF snapshots of the entire collection available for added value. In order to subscribe please contact your local IEC National Committee/approved sales outlet or visit the [IEC Webstore](#).

ISO 7000 collection only

If you are only interested in those graphical symbols produced by the ISO, then this restricted collection offers you access to the ISO 7000 standard only, with a PDF version of ISO 7000 available for added value. In order to subscribe please contact your local ISO member or visit the [ISO Store](#).

Special access requests

IEC National Committees ([click here](#))

ISO members ([click here](#))

IEC TC/SC Officers ([click here](#))

ISO TC/SC Officers ([click here](#))

IEC National Committees and ISO Member Bodies should indicate the names of the staff members to be authorized and the username used for accessing documents on the IEC or ISO web site respectively.

TC/SC officers should indicate their position with respect to a given TC/SC (chair, secretary, convenor) and the username used for accessing documents on the IEC or ISO web site respectively.

Localized versions

In addition to the international standard IEC 60417 maintained by IEC/TC 3, subcommittee SC 3C, IEC also hosts localized versions of IEC 60417 maintained under the responsibility of the respective National Committee. The following localized version is currently available:

Introduction

The database is organized as a set of "data sheets" describing the graphical symbols and their attributes. Please click on "General description" on the left panel to see how the database is structured and how to use graphical symbols.

IEC 60417 is used as a reference by the following IEC member countries:

Austria, Belgium, Canada, Cyprus, Czech Republic, Denmark, Finland, France, Germany, Ireland, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland, Ukraine, United Kingdom

Languages

The database is bilingual with all graphical symbol data available in English and French (not always true for ISO 7000 graphical symbols). While viewing a graphical symbol data sheet you can switch back and forth between the two languages.

Links

All items in blue represent links to other elements or to specific action.

Finding a symbol

The database provides two methods for finding a symbol:

1. Search function (top right of each page)

You can combine two search terms with a boolean "AND", "OR" or "NOT" operator.

2. Categorized views

Graphical symbols are categorized by registration number (symbol ID), name, keyword, shape, function, application, TC/SC, publication and status. Some of the views are presently not available for IEC 60417 graphical symbols.

Snapshots

Snapshots of the database contents are made available for reference purposes in PDF format. Please click on "Snapshots" in the left panel for further information.

Submitting proposals for change requests

The maintenance process for any changes to this joint IEC 60417 and ISO 7000 database, either for the inclusion of a new graphical symbol or a change to existing graphical symbols should be initiated by a change request (CR). Details are defined in the ISO/IEC Directives (IEC specific procedures, Annex SL for IEC 60417 graphical symbols, and ISO specific procedures, Annex ST for ISO 7000 graphical symbols).

In drafting technical content that may be included in the CR, please refer to IEC 80416-1, *Basic principles for graphical symbols for use on equipment* – Part 1:

This is a preview - [click here to buy the full publication](#)

Creation of graphical symbols for registration and ISO 80416-2: *Basic principles for graphical symbols for use on equipment – Part 2: Form and use of arrows*. The most recent guidance for the wording of the description for a symbol original can be found on both the [IEC TC 3/SC 3C](#) and [ISO TC 145/SC 3](#) website.

Proposers of such change requests can [click here](#) to send an e-mail to the secretaries of IEC SC 3C and ISO TC 145/SC 3 who are responsible for the maintenance of IEC 60417 and ISO 7000, respectively.

General description

A graphical symbol is a visually perceptible figure used to transmit information independently of language. The graphical symbols for use on equipment are used for a wide range of purposes. For such graphical symbols, consistency in design of families of symbols used in one location or on similar equipment is an important issue, as is legibility when these symbols are reduced to small dimensions. Thus, there have been common provisions among areas covered by IEC and ISO on basic principles for graphical symbols for use on equipment to ensure visual clarity, to maintain consistency and thereby to improve recognition (see IEC 80416-1 and ISO 80416-2).

Scope

IEC 60417 graphical symbols are primarily intended to:

- identify the equipment or a part of the equipment (e.g. a control or display);
- indicate a functional state (e.g. on, off, alarm);
- designate connections (e.g. terminals, filling points for materials);
- provide information on packaging (e.g. identification of contents, instructions for handling);
- provide instruction for the operation of the equipment (e.g. limitations of use).

IEC 60417 does not apply to symbol originals for:

- safety signs;
- use on drawings and diagrams;
- use in technical documentation of products and in technical product documentation;
- use for public information.

IEC 60417 has the status of a horizontal standard in accordance with IEC Guide 108.

ISO 7000 provides a synopsis of those graphical symbols which are placed on equipment or parts of equipment of any kind in order to instruct the person(s) using the equipment as to its operation.

Structure of the database

Each graphical symbol carries a registration number (symbol ID) and a name in English and French, together with a graphical representation in GIF and/or PNG and in vectorized PDF format. There are also several optional fields. Below is a full listing of all the database fields. Some of them do not apply presently to IEC 60417 graphical symbols.

- Symbol ID

- Name
- Graphical representation in GIF or PNG format
- Graphical representation in vectorized PDF format
- Status
- Product area
- Description
- Notes

How to use released graphical symbols

The graphical symbols are intended for use on equipment; generally speaking any kind of equipment. The field "Application" can be used to indicate more specifically for which type of equipment a graphical symbol is intended.

Guidelines for the application of graphical symbols for use on equipment are in IEC 80416-3. Supplementary guidelines for the adaptation of graphical symbols for use on screens and displays (icons) are in ISO 80416-4.

3447: Auxiliary hydraulic cylinder, retract (close) 	3448: Auxiliary hydraulic cylinder, float 	3449: Hydraulic cylinder, fast extension 	3450: Fuel drain 	3451: Diesel fuel drain 	3452: Water in fuel 	3453: Fuel system, water drain 	3454: Fuel consumption per hour 
3455: Nighttime instrument illumination 	3456: Ventilation air flow, upper, lower, and defrost 	3457: Operator cabin, outside air flow 	3458: Operator cabin, recirculating air flow 	3459: Seat swing 	3460: Log clamp, float 	3461: Log clamp, tilt rearward 	3462: Heel boom log loader, main boom, raise 
3463: All-tread, move out 	3464: All-tread, move in 	3465: Cab suspension system 	3466: Cab suspension system, lock 	3467: Cab suspension system, unlock 	3468: Cab suspension system, automatic operation mode 	3469: Secondary steering system, failure or malfunction 	3470: Protection against spikes 
3471: Protection against bullets 	3472: Loader bucket, transport mode 	3473: Skid steer loader (side view) 	3474: Skid steer loader (overhead view) 	3475: Dumper body, tip up and return 	3476: Excavator/backhoe, offset boom 	3477: Lawn and garden tractor (side view of machine) 	3478: Lawn and garden tractor (overhead view of machine) 
3479: Lawn and garden tractor, forward movement (side view of machine) 	3480: Lawn and garden tractor, rearward movement (side view of machine) 	3481: Lawn and garden tractor, forward movement (overhead view of machine) 	3482: Lawn and garden tractor, rearward movement (overhead view of machine) 	3483: Lawn and garden tractor, ground speed 	3484: Lawn and garden tractor, ground speed, automatic operation mode 	3485: Lawn and garden tractor, front wheel drive, automatic operation mode 	3486: Tractor blade, raise 
3487: Tractor blade, lower 	3488: Tractor blade, float 	3489: Riding lawn mower (overhead view of machine) 	3490: Riding lawn mower, forward movement (overhead view of machine) 	3491: Riding lawn mower, rearward movement (overhead view of machine) 	3492: Mower deck 	3493: Mower deck, raise 	3494: Mower deck, lower

3495: Grass-cutting equipment, cutting element, height adjustment, high cut	3496: Grass-cutting equipment, cutting element, height adjustment, low cut	3497: Grass-cutting equipment, cylinder drive, engage	3498: Grass-cutting equipment, cylinder drive, disengage	3499: Grass-cutting equipment, cylinder drive, reverse	3500: Electronic instructions for use	3501: Log clamp, raise	3502: Log clamp, lower
3503: Log clamp, tilt forward	3504: Log loader, grapple, move in	3505: Log loader, grapple, move out	3506: Heel boom log loader, main boom, lower	3507: Heel boom log loader, secondary boom, out	3508: Heel boom log loader, secondary boom, in	3509: Winch oil	3510: Winch oil pressure
3511: Bogie	3512: Bogie, front axle, raise (lift)	3513: Bogie, front axle, lower	3514: Bogie, rear axle, raise (lift)	3515: Bogie, rear axle, lower	3516: Heel boom log loader, heel boom, out	3517: Forward or rearward movement, general	3518: Check system; update system
3519: Display mode, rotate through displays	3520: Dozer (overhead-view)	3521: Dozer, forward movement (overhead view)	3522: Dozer, rearward movement (overhead view)	3523: Grader (side view of machine)	3524: Grader, forward movement (side view)	3525: Grader, rearward movement (side view)	3526: Articulated grader, return-to-straight
3527: Scraper, draft setting; average draft	3528: Scraper, initial draft setting, first scraper	3529: Excavator (side view of machine)	3530: Excavator, forward movement (side view)	3531: Excavator, rearward movement (side view)	3532: Excavator/backhoe, quick coupler (attachment bracket), lock	3533: Excavator/backhoe, quick coupler (attachment bracket), unlock	3534: Excavator/backhoe, adjustable boom, raise
3535: Excavator/backhoe, adjustable boom, lower	3536: Loader bucket, quick raise	3537: Loader bucket, quick dump	3538: Loader bucket, rollback, automatic mode	3539: Loader bucket, return-to-carry	3540: Loader bucket, return-to-dig	3541: Loader bucket, quick coupler (attachment bracket), lock	3542: Loader bucket, quick coupler (attachment bracket), unlock
3543: Skid steer loader, forward movement (side view)	3544: Skid steer loader; rearward movement (side view)	3545: Skid steer loader, forward movement (overhead view)	3546: Skid steer loader, rearward movement (overhead view)	3547: Dumper (side view of machine)	3548: Dumper, forward movement (side view)	3549: Dumper, rearward movement (side view)	3550: Dumper, ground speed
3551: Dumper, downhill (descent) speed control	3552: Outrigger, extend left and right beams and left and right jacks; extend all outriggers (stabilizers)	3553: Horizontal directional drilling machine (side view)	3554: Horizontal directional drilling machine, feed beam, tilt up	3555: Horizontal directional drilling machine, feed beam, tilt down	3556: Horizontal directional drilling machine, feed beam, move down	3557: Horizontal directional drilling machine, feed beam, move up	3558: Fluid mixing tank
3559: Fluid mixing tank, inlet	3560: Fluid mixing tank, outlet	3561: Earth anchor	3562: Earth anchor, in (down)	3563: Earth anchor, out (up)	3564: Earth anchor, rotate clockwise (in)	3565: Earth anchor, rotate anti-clockwise (out)	3566: Drill pipe rack, unload/load, first position
3567: Drill pipe rack, unload/load, second position	3568: Drill pipe rack, unload/load, third position	3569: Grader, ground speed	3570: Horizontal directional drilling machine, carriage, retract (up)	3571: Horizontal directional drilling machine, carriage, thrust (down)	3572: Horizontal directional drilling machine, drill string, forward rotation	3573: Horizontal directional drilling machine, drill string, rearward rotation	3574: Horizontal directional drilling machine, drill string, rearward rotation
3575: Horizontal directional drilling machine, drill string, retract	3576: Horizontal directional drilling machine, drill string, full fluid flow	3577: Horizontal directional drilling machine, drill string, reduced fluid flow	3578: Horizontal directional drilling machine, drill string, reduced fluid flow	3579: Fluid tank, inlet	3580: Fluid tank, outlet	3581: Clamp	3582: Rotating clamp

3583: Rotating clamp, close	3584: Rotating clamp, open	3585: Rotating clamp, clamp and rotate clockwise	3586: Rotating clamp, unclamp and rotate clockwise	3587: Rotating clamp, clamp and rotate anti-clockwise	3588: Rotating clamp, unclamp and rotate anti-clockwise	3589: Stationary clamp	3590: Stationary clamp, close
3591: Stationary clamp, open	3592: Drill pipe tool joint, connect	3593: Tool joint, disconnect	3594: Horizontal directional drilling machine, left track, forward	3595: Horizontal directional drilling machine, left track, rearward	3596: Drill pipe loader, move in	3597: Drill pipe loader, move out	3598: Counterweight
3599: Global positioning system (GPS)	3600: Wireless communications	3601: External electrical connection, enable	3602: External electrical connection, connected	3603: Electronic control unit (ECU), general	3604: Exterior lights, activation for inspection	3605: Alcohol interlock	3606: Vehicle electric power supply port
3607: Electric motor coolant temperature	3608: Cryogenic state of aggregation	3609: Toilet, flush	3610: Toilet, light flush	3611: Toilet, rear cleansing spray	3612: Toilet, front cleansing spray	3613: Toilet lid, opening and closing	3614: Toilet seat, opening and closing
3615: Gas, lighter than air	3616: Gas, heavier than air	3617: Gas, lighter or heavier than air	3618: Ultrasonic scaler with illumination	3619: Extended mobility tyre	3620: Run flat tyre; self-supporting tyre	3621: Tyre, internal support ring	3622: Ceramic tile, suitable for floor use
3623: Ceramic tile, suitable for wall use	3624: Ceramic tile, frost resistant	3625: Tail lift	3626: Rear step ladder	3627: Commercial vehicle, type 1 (side view)	3628: Commercial vehicle, type 2 (side view)	3629: Tail lift, up	3630: Tail lift, down
3631: Rear step ladder, down	3632: Rear step ladder, up	3633: Protection against vibration	3634: Protective gloves against vibration	3635: Protective equipment for firefighting support	3636: Protective equipment for wildland firefighting	3637: Protective equipment for rescuer activities	3638: Sensitivity
3639: Field mode	3640: Wake up	3641: Engine load (torque)	3642: Tyre radius	3643: Track Rradius	3644: Variable rate steering; steering sensitivity	3645: Trailer coupling ball	3646: Propeller
3647: Tractor-implement automation	3648: Stability control system, front; anti-jack-knife system	3649: Stability control system, rear	3650: Universal Serial Bus (USB), port/plug	3651: Brake assisted steering	3652: Protection against heat but not flame	3653: Three-point hitch linkage, slide	3654: Three-point hitch linkage, roll
3655: Group of spray nozzles, on; group of spray nozzles, continuous spray	3656: Group of spray nozzles, intermittent (pulsed) spray	3657: Next spray nozzle to left	3658: Next group of spray nozzles to left	3659: All spray nozzles, left boom	3660: All spray nozzles except outermost, left boom	3661: Outermost spray nozzle, left boom	3662: Protection against tick bites
3663: Textile weighing; Pesage de textile	3664: Fast filling / Remplissage à grande vitesse	3665: Weighing-in of material to a container; recipe	3666: Animal weighing	3667: Not for direct sales to the public / Interdit pour la vente direct au publique	3668: Reconfigurable control	3669: Engine load, per cent of rated torque	3670: Engine rotational speed, sensitivity setting
6398: Residual current sensitive device (RCD), type B-2	6399: Residual current sensitive device (RCD), type F-2	6400: Photovoltaic array installation	6400A: Photovoltaic array installation	6404: Earth referenced patient circuit	6405: Time synchronization, general	6406: Time synchronized type R security energizer	6407: Time synchronized type S security energizer
